1.Messages from the Board of Representatives

Chair of the Board of Directors (Representative Director)

Ueno, Susumu, ueno@konan-u.ac.jp, Professor Emeritus, Konan University, Japan

APMAA Policy for the year 2021 is "Nurturing and Reinforcing APMAA Sustainability." In 2021, we aim to achieve the following:

1. Building more value for our members. APMAA is a member-first organization. As everyone recognizes, our annual conferences are the platform that brings our members together,
2. Conducting the Spring Webinar (on March 22-23, 2021) and the Summer Webinar (Late August 2021) hosted by the European Chapter and the Middle East Chapter, respectively, besides the 2021 annual conference in Jakarta, Indonesia,
3. Refining APMAA vision, rules, and guidelines that tell members what APMAA stands for, how it operates, and why it deserves its business, and
4. Sharing administrative tasks (duties) among all Representative Directors, Senior Directors, and Directors.

APMAA is an academic association being supported and run by the goodwill of diligent volunteers. In 2021, APMAA renovates its Administration Team and Regional Chapter system. We introduce four

committees, i.e., Strategy Committee, Webinar Committee, Collaborative Research Project Committee, and Membership Committee. This renovation aims to facilitate the APMAA to change itself into a sustainable organization that survives and grows over the coming decades.

On November 25, 2020, APMAA completed the APMAA 2020 Webinar Talk Series "Staying Relevant: Finance and Management Accounting in a Digital Era." The Webinar comprised eight-sessions and started on October 1, and attracted over 1, 000 audiences in total. The team of Universiti Teknologi MARA (UiTM), Malaysia, organized the series. The UiTM was supposed to conduct the APMAA 2020 conference on 1 – 4 Nov. 2020. However, the COVID-19 pandemic disrupted the plan. Thank you for the technology. Zoom application provided us an alternative platform.

In 2020, APMAA obtained the final product of its first collaborative research project initiated at the APMAA 2016 Annual Conference in Taipei. That is a book entitled "Management Accounting in China and Southeast Asia - Empirical Studies of Current Practices" (edited by Dr. Robert C. Rickards, Dr. Rolf Ritsert, and Dr. Kanitsorn Terdpaopong; and scheduled to be published from Springer Nature Switzerland AG in April 2021). The research project focused on the Stages of Management Accounting Evolution in the Asia-Pacific Area. Congratulations!

APMAA will celebrate its 20th Anniversary of foundation in 2024. Let's develop and introduce more events and projects under the APMAA flag that are attractive enough to satisfy various demands from our diversified members worldwide. Our journey to the 20th-anniversary conference has begun already. See you all at APMAA 2021 in Jakarta. Stay safe, stay healthy, and stay connected.

9.The Product of the First Collaborative Research Project

In April 2021, APMAA will obtain the product of its first collaborative research project initiated at the APMAA 2016 Annual Conference in Taipei. That is a book entitled "Management Accounting in

China and Southeast Asia - Empirical Studies of Current Practices" published from Springer Nature Switzerland AG.).

Management Accounting in China and Southeast Asia - Empirical Studies of Current Practices

Management Accounting in China and Southeast Asia: Empirical Studies of Current Practices entered Springer Nature's production process in mid-November. This book is the product of APMAA's first collaborative research project, initiated by Prof. Dr. Kanitsorn Terdpaopong. Our special thanks go to Prof. Dr. Rolf Ritsert, who obtained the essential financial support from German Police University and placed this volume in one of the publisher's distinguished series, which enjoys a Scopus listing. I join Kanitsorn and Rolf in thanking all the collaborators for their great work and thoughtful insights. All the book's editors and co-authors have declined financial compensation for their contributions in lieu of our receiving additional copies of the work, which will be presented to APMAA for distribution at the forthcoming Djakarta conference. Serendipitously, on November 15, 2020, ASEAN (Association of Southeast Asian Nations) and its ASEAN FTA (Free Trade Area) partners signed the RCEP (Regional Comprehensive Economic Partnership) Agreement. It encompasses 15-member countries accounting for about 30% of the world's population (2.2 billion people) and 30% of global GDP (\$26.2 trillion). That makes it the biggest trading bloc in history. The agreement will take effect as soon as at least six ASEAN and three non-ASEAN signatories ratify it. Thus, the timing for the release of this APMAA book hardly could be better! -- Prof. Dr. Robert C. Rickards
